

Chirag Arora

Associate Manager - Cyber Security

chiragarora018@gmail.com | 9115161011 | Bangalore | LinkedIn | chiragarora.in

PROFILE

Experienced Cybersecurity Consultant with over **4+ years** of expertise in conducting and overseeing end-to-end **Web, API, Mobile and Infrastructure** Vulnerability Assessments and Penetration Testing, along with hands-on expertise in Burp Suite and other common VAPT components
Currently managing security engagements for enterprise clients, driving technical execution, stakeholder coordination, and compliance with industry standards.

PROFESSIONAL EXPERIENCE

CyRAACS, Associate Manager - Technical Services

05/2022 – Present | Bangalore

Technical Expertise

- Leading end-to-end execution of technical **penetration testing security assessments** including **Web, API, and Network VAPT** for clients in highly regulated environments.
- Practical hands-on with **Burp Suite, Nessus, Nmap, OWASP ZAP** and other common open source tools
- Driving project scoping, risk assessment, and remediation planning; preparing detailed **technical reports and executive summaries**.
- Conducted **Network, OS Configuration Audits** using Nessus
- Prepared Secure Code Review Reports across critical infrastructure and applications
- Conducted Firewall Ruleset Review assessment using Nipper
- Managed quarterly OKRs, prioritized security backlog, and optimized resource utilization for risk mitigation.
- Worked on several VAPT projects for clients in various industries such as **finance, healthcare, and government**.

Projects and On-Site Expertise

- **Currently Leading a team of 15 cybersecurity professionals** for a high-impact on-site engagement with one of **India's premier banking clients**.
- Responsible for end-to-end execution of VAPT activities across Web, Mobile, API and other cross functional internal projects.
- Actively involved in **project planning, resource management, technical reviews, and stakeholder communication** to ensure timely and quality deliverables.
